Join us this Summer to make an impact in Northwest China!

- Grow your heart in global concern for the lost around the world
- Experience the rich culture of China and learn about the ongoing revival that is happening therein
- Help facilitate Summer Camp for an orphanage

In 2003, a CLC Home Group ventured to Northwest China to visit an orphanage hosting summer camp. We still remember the stories of how some of these children came to know Christ! Since that time, a representative of CLC has not failed to attend this camp every year. God certainly has not forgotten these kids, and neither have we! This summer we want to send a team of five to attend and to continue building relationships with the children. A group of long-term missionaries organize the camp with people from Singapore. Chinese language ability is not necessary because the Singapore team will help with translation.
