All our Gems are created naturally in the USA and can vary in intensity and some may have a variation of the same color in one Gem or 2 or more colors in one Gem. Some have one solid color and for example we have them from dark Blue to a very light blue in Sapphires as well as all the other colors like Pink, Yellow, Orange etc. Sunstones come in every shade of Peach, Red, Blue, Green and Gold with several other colors also. All the Gems are truly spectacular call or email us and we will help you pick out the right color, shape and size.
